WILDERNESS EXPERIENCE

Our specialty is packs. Unlike companies that make packs just to complete their line of equipment, our only concern is making the best packs possible. They are made to be used and used hard. Look them over closely and compare them with others. Check the sewing and materials. (Our shoulder straps and waistbands are stitched in six times and the regular stress seams are stitched twice!) We use only the finest materials, our sewing quality is excellent and we confidently stand behind every pack we make. We're mountaineers; we enjoy making packs and we are very proud of what we make.

TEARDROP

The ability to provide easy access organization makes the TEARDROP a very useful pack. For skiing, bicycling, and climbing, the TEARDROP offers toughness and beauty.

The bottom compartment is double pull zippered and the top main compartment zips open for easy front loading.

The foam padded shoulder strap, ice axe loop, and leather strap patches give this pack the necessary accessories for climbing or overnight trips. The $\frac{3}{4}$ " adjustable webbing waist belt keeps the TEARDROP snug to your back.

The 11 oz. cordura pack is tough and waterproof with a smooth comfortable nylon back. If you find your fun on the rocks, we offer this pack with a leather bottom to take the bumps.

TUMBLEWEED

The TUMBLEWEED is an amazingly low priced, high quality book bag for adults. It is a practical single compartment bag with a zippered top opening. Perfect for the economy minded student who wants a long lasting rugged book bag at a good price.

HUMMINGBIRD

This modified Teardrop pack is excellent for short bird watching excursions or for carrying your things around back in the city. The main compartment opens fully across the top, with a covered double pull zipper. Perfect for books or a tennis racket. A separate diagonally zippered back pocket can easily accommodate folders, magazines and much more.

BIKE PACK

The BIKE PACK combines quality sewing and materials in a lightweight, inexpensive day pack that will hold two large notebooks and supplies, and still have room for more in the back pocket. As in our other packs, the zipper and all stress seams are either double or triple stitched. Made of 8 oz. waterproof parapack nylon for both durability and lighter weight. The BIKE PACK utilizes a double pull zipper on the main compartment. Adjustable webbing shoulder straps and waistband assures you a steady pack.

KLETTERSACK

"Kletter" means climbing. We designed this pack with the climber in mind, but with its clean lines and functional simplicity it finds friends in every camp.

The large flap pocket provides quick access storage. The padded shoulder straps and adjustable webbing waistbelt hold the pack in close while 6" side foam pads your back. Smooth nylon back and 11 oz. waterproof cordura throughout can handle long rough use. The leather strap patches on top, back, sides, and bottom can accommodate various accessories from ice axes to skis. Removable side pockets are available for any situation requiring additional room. The classic climbing pack, we offer an optional leather bottom for those who prefer it.

MEADOW DAY PACK

A most practical day pack, it has a large single compartment with more than enough room for a jacket and a lunch. The large back pocket and zippered top pocket are perfect for holding all the little easy-to-lose items. The MEADOW is made of rugged cordura nylon and has the same 1/2" thick padded shoulder straps as our other packs. The main compartment closes with a drawstring and clamp. An adjustable 3/4" webbing waistband is included.

HONEY BEE

The HONEY BEE is a scaled down version of our very popular Meadow Day pack. A zippered back pocket, perfect for holding school supplies and easy-to-lose items. The HONEY BEE is an ideal gift for children under 10 years of age.

CRICKET KID'S PACK

The CRICKET is a beautiful high quality child's day pack made at a reasonable price. Designed for grade schoolers, it has a zippered front opening perfect for holding toys, lunches or school supplies.

R.O.R. WRAPAROUND

The bottom compartment neatly holds your sleeping bag and the top section is vertically divided to keep the weight close to your back, but away from your spine.

Ski and strap patches provide convenient carrying of skis, ice axe or expedition wands. If winter mountaineering is your idea of a good time, the R.O.R. WRAPAROUND is our suggestion.
